BIVVY INSTRUCTIONS

XF2 PLUS PORCH EXTENSION

XF2 Plus Porch Extension Assembly:

- 1.** Remove the XF2 Plus porch extension awning section from the carry bag and connect it onto the corresponding zip at the front of your previously assembled XF2 bivvy.
- 2.** Inside the porch, assemble one of the supplied elasticated frame bars and attach it to the Velcro tabs on the inside of the awning nearest the XF2 bivvy.
- 3.** Clip the three short non-adjustable tension bars into their corresponding position to extend the first section of awning away from the XF2 bivvy.
- 4.** Assemble the remaining elasticated frame bar and attach it to the Velcro tabs on the inside of the awning area furthest from the XF2 bivvy.
- 5.** Clip the three long adjustable tension bars into their corresponding positions between the two elasticated frame bars and adjust to extend the awning.
- 6.** To increase frame rigidity where required, secure with supplied guy ropes. Ensure use of guy ropes if using just the awning without the zip on sides.
- 7.** Zip on the side & door sections and configure to your preference, pegging where necessary.
- 8.** Finally, adjust the height of the upright frame bars using the camlock style lower legs.

XF2 Plus Porch Extension Disassembly:

Disassembly is a reverse of fitting. Alternatively, the XF2 Plus porch extension can be stored in a semi-assembled state to save assembly time on your next outing:

1. Remove all pegs, doors, sides and tension bars. Walk the remaining material and frame bars towards the front of the XF2 bivvy.
2. Unzip the XF2 Plus porch extension and lay it on the floor, facing away from you.
3. Unscrew the upright poles of the frame bars and place them parallel to the horizontal bars.
4. The XF2 Plus porch extension can now be rolled forwards to gather any remaining material and place inside the carry bag until your next session*

***Note:** see storage information

Storage & Aftercare:

Proper storage is one of the most vitally important aspects of caring for your new XF2 Plus porch extension and every effort should be taken to ensure the it is packed away dry. If you need to pack away the XF2 Plus porch extension when it is wet, it is of paramount importance that it is unpacked and dried within 24 hours before being repacked dry. If stored when damp or wet mildew and rust will be able to form, both of which can severely damage the product and its accessories.

Always store in a cool, dark, dry place away from sources of heat or moisture. If storing for extended periods, we recommend unzipping the carry bag to allow fresh dry air to circulate.

Regularly cleaning and reproofing your XF2 Plus porch extension will maintain its ability to repel water. Use only clean, fresh water and a soft brush or cloth to clean your XF2 Plus porch extension. Do not use detergents or chemicals of any sort and never machine wash or tumble dry your XF2 Plus porch extension.

Warranty:

RidgeMonkey provides customers with a comprehensive warranty of two years from the date of purchase. Please keep your receipt in a safe place as it may be needed in the event of a claim. Your warranty covers replacement or repair at our discretion in the event of a manufacturing fault. Cover excludes damage arising from (but not limited to) misuse, neglect, improper storage, improper cleaning, Acts of God and is valid when your product is being used for recreational purposes only. No consequential loss may be claimed. This warranty is provided in addition to your statutory rights in the country of purchase.

Warning:

- **NEVER** use any fuel-burning products inside or within close proximity of your Escape XF2 Plus porch extension. Doing so can result in the accumulation of dangerous concentrations of carbon monoxide which can be fatal.
- While the Escape XF2 Plus porch extension is built using CPAI-84 flame resistant fabric, it is not fireproof and will burn if left in continuous contact with an open flame or other heat source. Failure to keep flame and heat sources away from the Escape XF2 Plus porch extension can lead to fire which may result in serious injury or death.
- Always peg down your Escape XF2 Plus porch extension properly to reduce the risk of loss or injury. Enough pegs and guy ropes are supplied to safely secure your Escape XF2 Plus porch extension in most situations, however it may be necessary to purchase additional pegs and ropes for use in extreme conditions. Tightly tensioning your Escape XF2 Plus porch extension with the included guy ropes further increases its strength and stability and we recommend that you do so whenever possible.
- Always maintain adequate ventilation inside your Escape XF2 Plus porch extension at all times to help reduce the build-up of condensation, moisture and odour. Use of the optional XF2 Plus Groundsheet (available separately) will also help to maintain temperature and prevent the build-up of condensation inside the Escape XF2 Plus porch extension.

Contact Us:

For any enquiries or comments concerning our products, please use the contact form on www.ridgemonkey.co.uk or call our dedicated Customer Services team on **+44 151 486 7070**, and we will respond to you as soon as possible.

Statement:

- In the first instance, we're only able to provide after-sales service for purchases made directly from RidgeMonkey. If you purchased your product through an authorised retailer, please contact them for any warranty issues and they will manage the claim on your behalf. Your statutory rights are unaffected.
- Please note that unauthorised trade reselling of RidgeMonkey products is prohibited. If you are an established high street retailer and wish to apply for a RidgeMonkey trade account, please contact Head Office on **+44 151 486 7070**
